BOARD TO SET DATE OF SCHOOL OPENING

Meeting of School Trustee Tonight to Decide on Annual Levy.

Tonight, the fate of those, "to whom this goodly earth and air, are banded and barred, forbidden fare," nine months of the year, will be weighed and decided, when the board of public school trustees will meet at the office of Supt. Nune and set the date of opening for the Mishawaka system. For the past three months books and studies have been forgotten—the slate and blackboard, memories of past horrors, which haunt the dreams of small children as the annual school vacation rapidly comes to a close—will again become the factor in their lives, and the fish pole, baseball bats and gloves and the corner diamonds to be found in every section of the city will be discarded. The advance information is that the buzzer and bell will announce its warning bright and early on the morning of Sept. 6. It is expected the high school will be a week or so later in beginning session. To Establish Levy. Other matters of importance will come before the board at its meeting. Among them the establishment of the annual school levy. The school levy this year will in all probability be the same as last year and will include the five per cent reduction made this spring. Several changes have been made in the faculty of the high school for the new school term. Among the new teachers this year will be Prof. Legs, master of arts, to fill the vacancy made by the death of Miss Mary D. Welch. He will teach languages. BILLION POUNDS OF FOOD SENT BELGIUM

United States Leads in Carrying For Refugees—Fed 7,000,000 People.

NEW YORK, Aug. 23.—Some idea of the volume of food purchases and shipments made by the commission for Relief in Belgium during the summer months may be gained from figures presented by the current report of the commission. Including the grain and foodstuffs sent from United States ports alone, the shipments have reached a total of 4,458,216 tons, or 1,026,402,840 pounds. These figures, it should be remembered, do not include the cargo sent from Canada and other foreign ports, which would bring the aggregate up to, if it does not exceed, 2,000,000,000 pounds, and the approximate total cost is nearly \$80,000,000.

From the United States ports, thus far, 77 shiploads of food and clothing have been sent to Belgium by the commission. During the winter and spring the requirements of Belgium to feed its population of 7,000,000 on a per capita ration of ten ounces a day which is about one-third of a soldier's ration—necessitated the sending of a shipload of food every four hours.
